## Important DEMO Instructions

<span style="color:red">**Please, read this document carefully as well as SkyElite Installation Manual before using the demo version.**</span>

### Current DEMO limitations

1. Demo is fully operative for 15 consecutive minutes.
2. Demo has a watermark label on all screens.
3. After 15 minutes, the demo will finish and SkyElite will be closed automatically.
4. To use the demo again, there are three conditions:
    a. Wait for 15 minutes between demo flights.
    b. Start a new flight with a different aircraft or demo will not work.
    c. Re-start SkyElite software.
5. Waiting less than 15 minutes between demo flights, not using a new aircraft in a new started flight or not re-starting SkyElite software will cause demo not to work.

### Useful recommendations

1. Run MSFS and wait until main menu is active and ready.
2. Run SkyElite at this point.
3. Open a new browser and enter SkyElite PFD.
4. Start a new flight.

### Terms and Conditions

The DEMO of SkyElite software is only for evaluation purposes.

It is not developed to be used as an unlimited time free version of the software, but a limited time evaluation version.

The software has to be uninstalled if it doesn't meet your expectations or requirements and user is not willing to purchase a license.

It is not allowed to continuously use the demo version as a functional licensed version even with its limitations. The continuous use of the demo version without purchasing a license is considered a violation of the legal use of this software.

We reserve the right to add, change, modify and remove SkyElite DEMO functionality, features or limitations as well as this manual at our sole discretion and without any notice.
